

Pickaxe: ASIC Brokerage

PXE Group's founding desk: ASIC sales and trading across primary and secondary markets since 2020. Roughly 60 EH/s of hashrate and 1.65 GW of connected load placed with operators worldwide.

WHAT WE TRADE

NEW	New Units	Current-generation ASICs, allocation and lead times stated plainly.
USED	Secondary Market	Hash-checked against a written standard where the lot carries test data; when a lot is offered as-is, we say so upfront.
RTB	Trade-in & Buyback	Sell the old fleet and fund the new one in one transaction.
BULK	Bulk & Logistics	Container-scale orders, customs, freight, delivery to site — blind BOLs and cargo insurance options available.

HOW THE DESK WORKS

01	Spec & Quote	Platform, quantity, timeline. Pricing back within one business day.
02	Source	Primary allocation where available; secondary network where faster.
03	Verify	Serials, provenance, and condition documented, with grades in the deal file. Escrow available.
04	Ship	Logistics, customs, and delivery to site, worldwide.

TRACK RECORD

UNITS TRANSACTED 500,000+	HASHRATE PLACED 60 EH/s	OF TODAY'S BTC NETWORK ≈6% equivalent	TRADING SINCE 2020

IN PLAIN TERMS

Every unit we supply carries its manufacturer's name. If your site's power is becoming worth more than the mining on top of it, our powered-site desk handles that conversation confidentially.
